Mr. Harvey Thomas, Commissioner
Price River Distribution System
165 North 5th West
Price, Utah

Re: Price River Distribution System

Dear Mr. Thomas:

I was recently contactd by Mr. Ed Skeen, Attorney for Mr. Boyd Marsing. He is the holder of Application No. 26424, and No. 28944, which give him a right to use some springs immediately below the Country Club. He claims the Country Club, in digging their sump and changing their means of using water, is interfering with some spring water and has resulted in a subsequent decreaseed flow.

Will you please contact Mr. Marsing; go over the situation with him, and report to me whether or not you feel there is any interference and also whether the Country Club has changed their method of diverting since the applications were filed.

Enclosed are copies of the two applications for your information in this matter.

Very truly yours,

Donald C. Norseth,
Distribution Engineer
